DETAILED ACTION

Examiner's Comments

1. This action is in response to applicant's request for continued examination and accompanying amendment received 14 May 2004. The amendment cancelled claims 1-2, 12-25, 30, 34, amended claims 3-11, 26, and added new claim 35. The pending claims are 3-11, 26-29, 31-33, and 35 with claims 31-33 being withdrawn.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas Luebbering at 816-474-9050 on Thursday 8 July 2004.

The application has been amended as follows:

Cancel claims 26-29 and 31-33.

Reasons For Allowance

3. The following is an examiner's statement of reasons for allowance: The prior art of record fails to show or teach in combination a rotation motor system including a rotation motor having first and second ports, first and second media lines respectively operably coupled with the first and second ports for receipt and discharge of pressurized media by the motor for operation thereof and a first, pressure-responsive control system operably coupled with the motor for protecting the motor when the motor experiences a pressure exceeding a predetermined level and

an improvement which comprises a second and separate pressure-independent control system, having a valve interposed between the first and second media lines and shiftable between a closed position wherein the first and second media lines are substantially isolated from one another and a pressure differential exists between the first and second media lines, and an open position wherein the first and second media lines are in communication with one another and a manually controlled control mechanism coupled with the valve and operable to shift the valve from the closed to the open position independently of the pressure-responsive operation of the first control system and of the pressure differential between the first and second media lines.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
